Your business card should leave people a strong impression of your identity as a design professional, the best business cards are a brilliant marketing tool that help you showcase your unique style and help you stand out. A standard business card based on one of the business card templates is a missed opportunity to reflect a bit of your personality, and will immediately leave you forgettable to potential new customers. If all this talk about new clients reminded you that your portfolio looks a little tired, don't worry as we round up the best portfolio examples as inspiration for a refresh.01. Iris Commission Business Cards... These are mine... mini portfolio, why not? pic.twitter.com/kyvHGBBEWymarch 12, 2019 Artist and illustrator Iris Compier has done something truly special for design business card. Inside the simple folder is a complex concertina brochure depicting examples of her living illustrations. To literally give out a portfolio as a business card is a fantastic piece of public relations and shows real attention to detail.02. LushFor the best results, spread seeds then add rich. Genius This brilliant business card design from Struck Creative cleverly doubles as a seed case for lawn and real estate management company Lush. Not only does it provide all relevant information in a clear and concise way, they hold valuable cargo, meaning they are much less likely to be rejected. Kantapon covered one by one A woman on mini cards who passersby could peel off New York-based illustrator Gong Kantapon went all out when it came to getting his business card noticed. Kantapon covered a poster of a woman on mini cards, that passers-by could peel off and take away. It got everyone's full attention leaving people wondering exactly what would be revealed when the cards were removed.04. Lego business cardTh lego minifig business cards are tailored to match their owner Not only do kids working at Lego have a super-cool job, they also get these awesome Lego minifigure business cards. It has been reported that the company is doing its best to match the characteristics of each employee, even down to their hair and accessories. The person's name, email and contact number are then printed on the shape's clothes. Best business card ever!05. Bon VivantAd agency JWT designed this awesome cheese grater business card design for Bon Vivant We love this business card, which doubles as a tiny cheese grater, for the Brazilian cheese shop Bon Vivant. Created by ad agency JWT, the smart networking tool had proved extremely popular, with the owner having to tell customers to wait a few days before returning to receive another. The awesome design also comes complete with a protective sleeve. Overall, just a grill idea! (See what we did there? 06. Cotton Business Cards Business Cards Have a Hidden Secret These business cards from MOO may not seem anything out of the ordinary, but they are actually made entirely of offcuts of cotton T-shirts (the fabric left over once the pattern has been cut). The company teamed up with Mohawk Fine Papers to reinvent one of the oldest methods of paper manufacturing. The t-shirt clippings are collected, converted into pulp and then dried and pressed into a strong, flexible, naturally bright white paper, ready to be turned into high quality business cards. Watch the video to see how it's done.07. Engraved John T. Kim created this design by laser cutting and engraving basswood The clue is in the title of these engraved unique business cards from New York-based designer John T. Kim. Created by laser cutting and basswood engraving, the woodgrain pattern makes each card truly unique. Engraved began his life as a kickstarted project aimed at funding \$1,500. He ran for 30 days, and during that time garnered enough attention to raise nearly \$24 million. MODHairThis cool music comb professional plays a rock theme When the owner runs their nail along the teeth of this musical comb, he plays a classic rock theme. The innovative idea was developed by Amsterdam-based designer Fabio Milito for MODhair, a rock'n'roll salon in Rome. A brilliant way to integrate brand identity into a single card.09. BentlyThis smart business card can be folded into a tiny armchair What you see here is a neat business letterpress card and mailer for the Bently furniture store in London that can be made into a mini plywood chair. Plywood. smart card was created by designer Richard C. Evans and produced by Elegante Press in Lithuania. Just follow the instructions and the kiss-cut card can be folded into a thumbnail of the iconic 1934 plywood armchair designed by Gerald Summers.10. GreekA brilliant design from the FCB Design for the Greek restaurant OK, so these are probably not the most practical business cards in the world, but the idea is pretty cool. Developed by Cape Town-based creative agency FCB, these creative cards were made for a Greek restaurant, and play with the traditional Greek custom of breaking plates. Made from broken pieces of pottery, the unique design is decorated simply with the name and phone number of the restaurant. Number.
